DETAILED ACTION

Response to Amendment

Applicant's arguments filed 06/03/08 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by examiner in the last office action.

Claims 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Schubert et al (AV or AW or AX reference cited in form 1449).

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Note that claim 1 has been amended to increase the NAMW of from 30,000 to 200,000.

Applicant argues that if Schubert references do not disclose the resultant MW and even if the degree of polymerization n were 10 for such oligomers, the resulting MW of the polymer would only be 80,000 as compared with at least 200,000 for those polymers presently claimed.

Note that in the AV reference, Figures 1 and 2 disclose n is 178; in the AW reference, Figure 2 discloses $n=178$, and in the AX reference, n can be varied from $n=8$, 38, 39, 178, 180 (see Scheme 2). Based on Applicant's calculation and based on the degree of n cited in the references, the NAMW must be greater than 200,000 and overlapped the claimed NAMW.

Applicant's arguments are also based on the specific steps of the process to have the claimed range NAMW. Said arguments have been fully considered but they

Art Unit: 1796

are not persuasive since they are not commensurate in scope with the claims. Further, the references do disclose said NAMW.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.
